

Atmospheric Water Generator

Disruptive, decentralized, sustainable, drinking water platform where only H2OLL can produce

The Potential

1.1 BN people

In areas of critical water shortage

190 BN USD

exclusive market potential

H2OLL

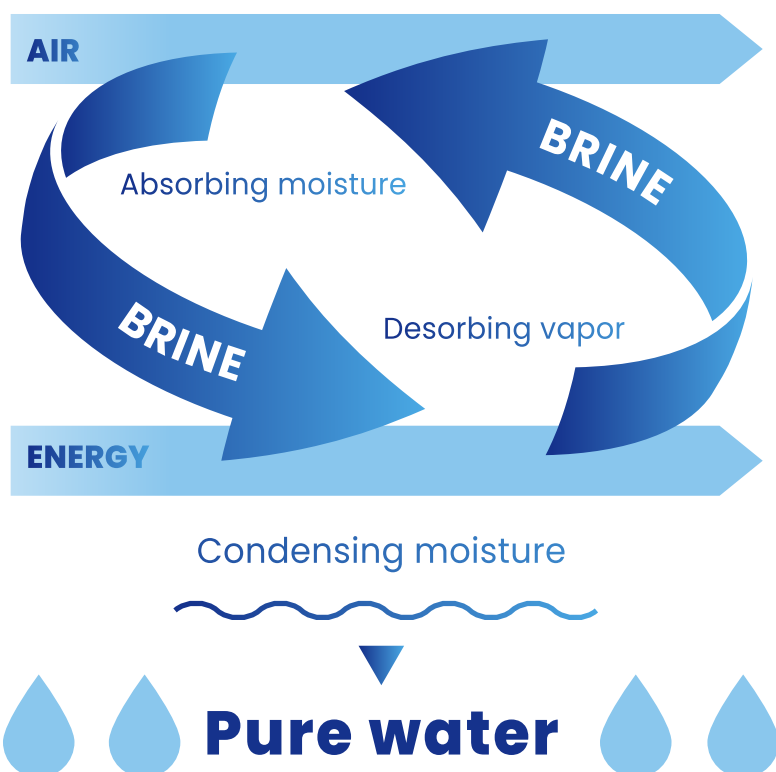

x2 efficiency
Producing in 1/2 the humidity conditions V competitors

H2OLL - Proprietary Technion patented technology

- ◆ 1000 liter/day
- ◆ High quality water
- ◆ 80% cheaper than alternatives
- ◆ Plug & Play at the point of use
- ◆ Replacing bottled water
- ◆ Sustainable
- ◆ Simple maintenance

Commercial system: 1,000 Liters/day

The team

Management

- Joab Kirsch** - Co founder, CEO, vast management experience
- Ilan Katz** - Founder & CTO, senior environmental engineer
- Oded Distel** - Co founder, VP biz dev. An expert in the water sector

Scientific Committee

- David Broday** - (Prof.) Inventor, Technion, Israel
- Eran Friedler** - (Prof.) Inventor, Technion, Israel
- Khaled Gommed** - (Dr.) Technion, Israel
- Ben Gido** - Inventor

Business Models

Direct sale

Water as a service
